

RICOH Smart Locker Solutions 6100 Series

Shallow-depth lockers

Device Management or Shallow-depth lockers - the smart way to control your devices and save costs

24/7 management of high-value IT assets device e.g. Hand Held Terminals (HHT's), laptops, mobile devices.

Typical use cases include:

- Warehouse / DC / Transport Logistics – Management of Hand Held Terminals Mobile Printers, Smart Devices.

In-Locker USB charging available (optional) where devices require continuous charging.

Cloud-based platform provides real-time visibility, tracking, insights and reporting.

API's available to support integration into 3rd party systems e.g. Ecommerce, Order Management Systems.

Integrated peripherals include:

- RF Reader - Authentication of users via ID Badge
- Barcode Scanner - Validation of devices when being checked in / out

Custom branded option to match your corporate colours / logos.

Shallow-depth lockers ideal for managing hand-held scanners, radios, tools, etc.

- Fast and easy access & return of devices
- No need for a cage hand to distribute devices
- Real time reporting for audits and alerts
- Full accountability and traceability of devices

RICOH Cloud platform

Our RICOH Cloud platform makes these smart devices absolutely brilliant.

- You'll know who used what, when and where, 24/7.
- And you can set up automated alerts and notifications to reinforce established processes and monitor activity patterns.
- Plus, the electronic audit trail provides detailed documentation for automated compliance management.
