

Ricoh Smart Integration

Manage your key documents simply, securely and with confidence, wherever you have an MFP

What is RICOH Smart Integration

RICOH Smart Integration's all-in-one cloud platform transforms the management and enhances the versatility of your Ricoh device(s), with authentication, access control, reporting & cloud connectivity, meaning secure cost-effective, sustainable, and intuitive document services, powered by technology.

How does it work?

RICOH Smart Integration ensures that your print infrastructure delivers maximum value to your business, empowering your employees through flexible and intuitive scanning and workflow automation services, and supporting your sustainability initiatives to minimise environmental impact and maximize business value.

Unlock the value of RICOH Smart Integration

A print infrastructure to optimise your digital workspace

Why use RICOH Smart Integration for your business?

- Make printing easy and intuitive with less administration using RSI Control+.
- Protect your information with secure devices that ensure access is only available to authenticated authorized users.
- Remove ALL print servers and desktop clients from your print infrastructure – decreasing the burden on IT.
- Enable a seamless and agile workspace by allowing simple intuitive printing anywhere and from any device.
- Remotely manage and maintain an always updated secure fleet of Ricoh devices.
- Use intuitive scanning from your Ricoh device as the entry point into your document management and digital workflow.
- Enable simple ad-hoc scanning with RSI Connectors or high-volume automated workflows with RSI LogicFlow.
- Automate document processing with OCR to reduce manual work & risk of human error, free up time and enhance employee experiences. Reduce waste and paper consumption with intuitive cloud-hosted authenticated pull-printing services that ensure users print only what they need.
- Make printing accountable and identify bad printing behaviors with reporting and analytics that allow you to make informed decisions regarding print policies.

Main packages

RICOH Smart Integration Control+

Cloud-based print, scan, and device management, helping you to optimize print infrastructure and support sustainability.

Print Management

- Authentication (Card, PIN, Password)
- Access control
- Accounting
- Pull printing
- Direct printing
- Mobile printing
- Cost allocation / Billing codes
- Reporting / Scheduled Reports
